

Shady Burro 2017

We are excited to have the cooperation of the US Forest Service and the Town of South Fork for the 2nd Annual Shady Burro Enduro! This year we are riding a different set of trails, and we promise it will test you.

The event will be staged within the city limits of South Fork. There will be plenty of camping available with lots of flat spots to choose from. You will NOT need to be street legal. Apart from that, the rules are still AMA Reliability Enduro just like last year. Yes, we will have Time-Checks, and you will want to make sure you go thru them on your prescribed minute.

WE ARE LOOKING FOR HELP with the event. Please get in touch with Scott via email at scott@scottbright.net to talk about help options.

WE ARE NOT sanctioning with WestChec this year, because a lot of Colorado guys missed out on the event due to the fact that it sold out in 12 days. GET YOUR PRE-ENTRY DONE on June 29 when it opens! We do anticipate the event will sell out again.

You are WELCOME in South Fork, and the Rio Grande National Forest with your motorized vehicle. The good folks there understand the concept of MULTIPLE-USE Public Lands, and understand the POSITIVE economic impact you have on their community. The RGNF Forest Staff have been very supportive of this event and motorized use. Please do not mess up the good thing we have going by riding in closed areas, not having an OHV sticker, not having a Sparky, and being obnoxious to other forest users.

Details about the event:

- 350 riders max (USFS limit)
- 2 day event, 2 days' RMEC points
- Reliability Enduro Rules, NO IMPOUND
